

Data Sharing Statement

Title of the Article: A study on utility of modified Ziehl Neelsen staining in the diagnosis of confirmed cases of osteoarticular tuberculosis

Question	Authors' Response
Will the data collected during your study be made available to others?	Yes
Kindly explain which data and how you wish to make that data available to other researchers.	All the findings
Additional information about data	No
How or where can the data be obtained?	Microbiology
When will data availability begin?	Now
When will data availability end?	-
Will any supporting documents be available?	No
Which supporting documents will be made available?	No
Additional information about supporting documents	No
How or where can supporting documents be obtained?	No
When will supporting documents availability begin?	No
When will supporting documents availability end?	No
To whom will data be available?	Corresponding author
For what type of analysis or purpose?	Compete work
Any other restrictions?	No
